

Our space, built in 2016, holds the feel of Napa Valley, incorporating old world charm and modern innovation.

The impressive twenty-foot, hand-built stonework surrounding the fireplace, seen upon entering our space, creates stunning ambiance and comforting warmth. The charm of the original 1790's farmhouse that once sat on our property, can be seen throughout Silver Oak, including the large hand cut beams in the main entrance and bar area, reclaimed wood on the walls and our custom built farm tables. The state of the art sound system and lighting will create the perfect look and sound for the event of your dreams.
